

**SARGENT***hand tool division*

CARPENTER TOOLS

**#600 ALL PURPOSE Aluminum
Plane with the 4 Edge Disposable
Blade that never
needs sharpening**

The unique disposable blade has four factory-sharpened and tempered cutting edges. No sharpening is necessary! Simply rotate the numbered blade as used edge dulls. Accurate vertical adjustment for planing tissue-thin to coarse shavings. The new clamp design prevents blade chatter. Form-fitting handle and knob make planing simpler, easier.

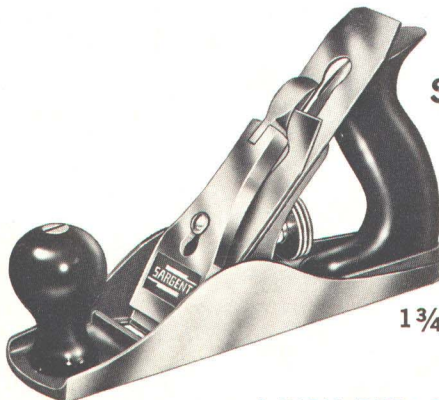

**SPECIFICATIONS**

Gold hammertone finish
Nickel-plated screws and clamp
10" overall length, Aluminum
body
1 3/4" chrome vanadium blade
Packed 1 per box; 10 per carton
— 16 lbs. Replacement blades
packed 1 per envelope; 10
per box

Nearly a century of tool-making experience has been applied to the design and production of Sargent carpentry tools. The result is professional quality at moderate prices...and a wide market among both craftsmen and homeowners.

BENCH PLANES

Cutters extended or retracted quickly by turning large brass adjusting nut. Lateral adjustment controlled by lever. Finished in black and plain steel. Sides and bottom ground smooth.

**SMOOTH****#1408**

**8-INCH BED;
1 3/4-INCH CUTTER**

#1409

9-INCH BED; 2-INCH CUTTER

For light shavings on relatively smooth wood. Often used after preliminary planing with #1414 Jack Plane to produce super-smooth surfaces.

JACK**#1414**

**14-INCH BED;
2-INCH CUTTER**

For all work requiring heavy shavings.
Perfect for planing down rough surfaces.

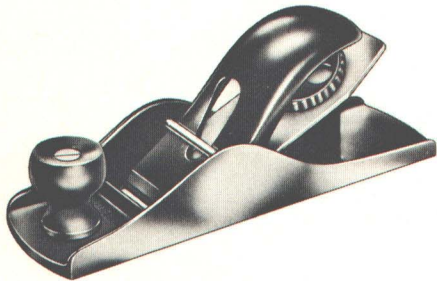

UNCONDITIONALLY GUARANTEED!

12 CERTIFIED ADVANTAGES

1. Genuine vanadium tool steel blade.
2. Anti-chatter construction. Frog, bed and throat precision machined.
3. Steel spring under toggle for firmer seat on cap and blade.
4. Precision ground spring cap for perfect fit against blade.
5. Longer cap for greater rigidity.
6. Exclusive Sargent blade slot prevents injury to edge of Cutter when assembling after honing.
7. Full-size solid brass adjusting nut.
8. Heavy reinforced bed.
9. Fully-polished solid cast iron clamp assembly.
10. Tough plastic knob and handle, shaped for firm, comfortable grip.
11. Easily adjusted to cut paper thin to coarse shavings.
12. Perfectly balanced for tireless planing.

BLOCK PLANES

Designed for planing the ends of boards and cross-grained wood.
Cut with a shearing action to reduce the danger of splitting.

No. 1107 7-INCH BED; 1 5/8" CUTTER.

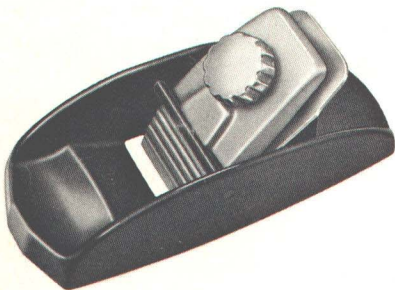

Easily adjusted by loosening knurled adjusting screw and tapping cutter into desired position. Bottom ground smooth.

No. 1217 7-INCH BED; 1 5/8" CUTTER.

Turn of adjusting screw extends or retracts cutter. For lateral adjustment release lever on clamp. Sides and bottom ground smooth.

Attractive black and plain steel finish.

Fits in the palm of your hand.
Only 3 5/8" long.

No. 1104 "LITTLE SHAVER"

This small plane is ideal for the handyman or modelmaker. Heavy duty cast iron construction with a real tool steel blade. Finished in black and yellow. Packaged in a 5 1/2" x 6 1/2" bubble card.

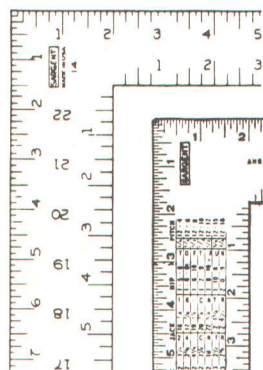

ATTRACTIVE PACKAGING

Sargent planes are packed in attractive, heavy, point-of-purchase boxes.
